

CNN News Highlights — Artists Against AI

1) beloved	2) Grammys	3) hotshot	4) perceive	5) record	6) replicates
------------	------------	------------	-------------	-----------	---------------

Pop Quiz, ____: Which one of these artists has won the most ____? Taylor Swift, Shakira, Beyonce or Stevie Wonder?

Queen B, Beyonce is the correct answer here. She's the most awarded artist in Grammy history with a ____ 32 wins.

Music is an art and it's so important to so many of us, right? But what happens when artificial intelligence ____ or replaces our ____ artists' voices? It might be a good topic of discussion for you and your friends. Does AI change the way you ____ the songs and voices you love?

1) devalues	2) music platforms	3) nonprofit	4) open letter	5) the music industry	6) threat
-------------	--------------------	--------------	----------------	-----------------------	-----------

How does it change ____? Who all does it impact? Is AI a ____ to the music industry or what good might it bring?

More than 200 artists including Billie Eilish, Stevie Wonder, Jon Bon Jovi, Katy Perry and more say yes, artificial intelligence is a threat to the music industry. In an ____ organized by the ____ Artist Rights Alliance, these artists are asking AI developers, tech companies, ____ and digital music services to stop the use of artificial intelligence, saying that it ____ the rights of human artists. CNN's Entertainment Correspondent Elizabeth Wagmeister has more on the artists' growing concerns.

1) A-listers	2) compensation	3) estates	4) rightsholders	5) show of support	6) voice cloning
--------------	-----------------	------------	------------------	--------------------	------------------

This is the biggest ____ that we have seen from ____ against AI, which of course is a growing concern in Hollywood and beyond. Stars like Katy Perry, Stevie Wonder, Jon Bon Jovi, also the ____ of Frank Sinatra and Bob Marley are calling to stop AI from replacing human artists. They say that ____ will essentially take away work and take away ____ from singers, songwriters, ____.

1) Congress	2) going away anytime soon	3) here to stay	4) legislation	5) pass an act	6) Tennessee
-------------	----------------------------	-----------------	----------------	----------------	--------------

Now, this is not an issue that is ____, right? The technology is _____. And now what's going to happen in Hollywood is what do we do with it? How do you protect these artists? We do see some ____ happening. This is an issue that is going to _____. We just saw ____ was the first state to ____ to bring some rights and protections to the artists.

1) appreciate	2) a track	3) decades	4) innovative	5) take away from	6) the bottom line
---------------	------------	------------	---------------	-------------------	--------------------

But we also have artists who ____ AI. Paul McCartney recently said that he actually loves the technology because last year the Beatles were able to release what he says is their last song by taking ____ that was recorded by John Lennon ____ ago and using it for a new song.

So again, very ____ technology, but can't ____ the work and ____ for all of these artists.

Translation

突發小測驗，高手：這些藝術家中，誰獲得最多葛萊美獎？泰勒·斯威夫特、夏奇拉、碧昂絲還是史蒂夫·汪達？

碧昂絲 (Queen B) 是正確答案。她是葛萊美獎史上獲獎最多的藝術家，共獲得 32 項大獎。

音樂是一種藝術，對我們許多人來說都非常重要，對吧？但是，當人工智能複製或取代我們所愛的藝術家的聲音時，會發生什麼？這可能是你和朋友們討論的好題目。人工智能是否改變了你對你喜愛的歌曲和聲音的感受？

它如何改變音樂產業？影響到哪些人？人工智能對音樂產業是威脅還是有何益處？

超過 200 位藝術家，包括比莉·艾利什、史蒂夫·汪達、強·邦喬維、凱蒂·佩芮等都說，人工智能對音樂產業構成威脅。在非營利組織藝術家權利聯盟組織的一封公開信中，這些藝術家要求人工智能開發者、科技公司、音樂平台和數位音樂服務停止使用人工智能，稱其貶低了人類藝術家的權利。CNN 的娛樂記者伊麗莎白·瓦格邁斯特更深入報導了藝術家們的日益增長的擔憂。

這是我們從甲級名人中看到對抗人工智能的最大支持表態，這當然是好萊塢及其他地區日益關注的問題。像凱蒂·佩芮、史蒂夫·汪達、強·邦喬維，還有法蘭克·辛納屈和鮑勃·馬利的遺產等都呼籲停止人工智能取代人類藝術家。他們說，聲音克隆將基本上奪走歌手、作詞人、版權持有人的工作和報酬。

現在，這不是一個會很快消失的問題，對吧？技術已經來到這裡並將留下。那麼現在好萊塢要做的是什麼？我們該如何保護這些藝術家？我們確實看到一些立法正在進行。這是一個即將提交國會討論的問題。我們剛看到田納西州成為第一個通過法案，為藝術家帶來一些權利和保護的州。

但我們也有欣賞人工智能的藝術家。保羅

·麥卡尼最近表示，他實際上非常喜歡這項技術，因為去年披頭士能夠發布他們所說的最後一首歌，這首歌是利用數十年前約翰·藍儂錄製的一條曲目製作的新歌。

因此，再次強調，這是一項非常創新的技術，但不能從所有這些藝術家的工作和底線中抽走。

Answers

1) beloved	2) Grammys	3) hotshot	4) perceive	5) record	6) replicates
------------	------------	------------	-------------	-----------	---------------

Pop Quiz, **3) hotshot**: Which one of these artists has won the most **2) Grammys**? Taylor Swift, Shakira, Beyonce or Stevie Wonder?

Queen B, Beyonce is the correct answer here. She's the most awarded artist in Grammy history with a **5) record** 32 wins.

Music is an art and it's so important to so many of us, right? But what happens when artificial intelligence **6) replicates** or replaces our **1) beloved** artists' voices? It might be a good topic of discussion for you and your friends. Does AI change the way you **4) perceive** the songs and voices you love?

1) devalues	2) music platforms	3) nonprofit	4) open letter	5) the music industry	6) threat
-------------	--------------------	--------------	----------------	-----------------------	-----------

How does it change **5) the music industry**? Who all does it impact? Is AI a **6) threat** to the music industry or what good might it bring?

More than 200 artists including Billie Eilish, Stevie Wonder, Jon Bon Jovi, Katy Perry and more say yes, artificial intelligence is a threat to the music industry. In an **4) open letter** organized by the **3) nonprofit** Artist Rights Alliance, these artists are asking AI developers, tech companies, **2) music platforms** and digital music services to stop the use of artificial intelligence, saying that it **1) devalues** the rights of human artists. CNN's Entertainment Correspondent Elizabeth Wagmeister has more on the artists' growing concerns.

1) A-listers	2) compensation	3) estates	4) rightsholders	5) show of support	6) voice cloning
--------------	-----------------	------------	------------------	--------------------	------------------

This is the biggest **5) show of support** that we have seen from **1) A-listers** against AI, which of course is a growing concern in Hollywood and beyond. Stars like Katy Perry, Stevie Wonder, Jon Bon Jovi, also the **3) estates** of Frank Sinatra and Bob Marley are calling to stop AI from replacing human artists. They say that **6) voice cloning** will essentially take away work and take away **2) compensation** from singers, songwriters, **4) rightsholders**.

1) Congress	2) going away anytime soon	3) here to stay	4) legislation	5) pass an act	6) Tennessee
-------------	----------------------------	-----------------	----------------	----------------	--------------

Now, this is not an issue that is **2) going away anytime soon**, right? The technology is **3) here to stay**. And now what's going to happen in Hollywood is what do we do with it? How do you protect these artists? We do see some **4) legislation** happening. This is an issue that is going to **1) Congress**.

We just saw **6) Tennessee** was the first state to **5) pass an act** to bring some rights and protections to the artists.

1) appreciate	2) a track	3) decades	4) innovative	5) take away from	6) the bottom line
---------------	------------	------------	---------------	-------------------	--------------------

But we also have artists who **1) appreciate** AI. Paul McCartney recently said that he actually loves the technology because last year the Beatles were able to release what he says is their last song by taking **2) a track** that was recorded by John Lennon **3) decades** ago and using it for a new song.

So again, very **4) innovative** technology, but can't **5) take away from** the work and **6) the bottom line** for all of these artists.
